

# ASPTraq™

## Fast, Accurate and Versatile Tracking Solution for Production and Manufacturing

SPECIFICATIONS	
<b>ELECTRICAL</b>	
Supply Voltage	DC 9V - 12V
Power Consumption(mA)	120mA (no scanner)
Power Output	DC 5V (optional)
<b>PHYSICAL</b>	
Weight (without cable)	285 grams
Material	ABS Plastic
Size	W95mm D190mm H30mm
LCD	4 Line 20 Character
Keypad	20 Key Alpha/Numeric
<b>DATA INTERFACE</b>	
Input	RS232
Output	Ethernet 10mbps
<b>COMPLIANCE</b>	
CE	
Ctick	

Ethernet is fast becoming the communication standard in industrial applications. As the need to integrate and monitor what is happening on the shop floor with existing ERP or accounting packages grows, so will the need to install Ethernet ready devices.

If you have an application that could be handled by a networked PC, but you don't have the space or the budget, consider the virtues of the ASPTraq compact Ethernet Terminal.

Although not itself a PC, ASPTraq uses "thin client" technology so it can be quickly programmed in Microsoft's VBScript language running under ASP's RFolution! Development System. Under program control it can instantly interact with all the facilities of the network, such as printers, files, and email, yet the attractive and compact unit occupies bench space equivalent to only a third of an A4 sheet!

RFolution! can control different models of Radio Frequency Terminals as well as ASPTraq units, therefore future proofing your investment. RFolution!'s on screen visual simulation of the ASPTraq Terminal even allows applications to be written to proof of concept stage without the actual hardware. Once the application is complete you just need to purchase the units and configure them.

You'll find more details on RFolution! at [www.rfolution.com](http://www.rfolution.com).

- **Rugged Design**
- **Clear 4 Line by 20 Character LCD Display**
- **Easily Cleaned Membrane Keypad**
- **Barcode Scanner Options**
- **Ethernet Interface**
- **RS232 Port**
- **Power Over Ethernet Kit Available**
- **Optional Relay For Low Voltage Switch**
- **One Year Warranty on ASPTraq and Standard Scanner**
- **5 Year Warranty on Industrial Scanner**
