

Choose the printer that's right for you

ASP Microcomputers extends its range of approved receipt printers for the education sector.

Each model provides excellent printing performance with a range of pricing that should fit within any budget. A full range of optional accessories are available such as barcode scanners, receipt paper and cash drawers – all compatible with the printer and financial systems such as CASES21, EDSAS Finance etc. Usually delivered within two to three business days and backed up by ASP's nationally renowned support.
